

Fabric Chicago

Eco-certificate „Second nature“

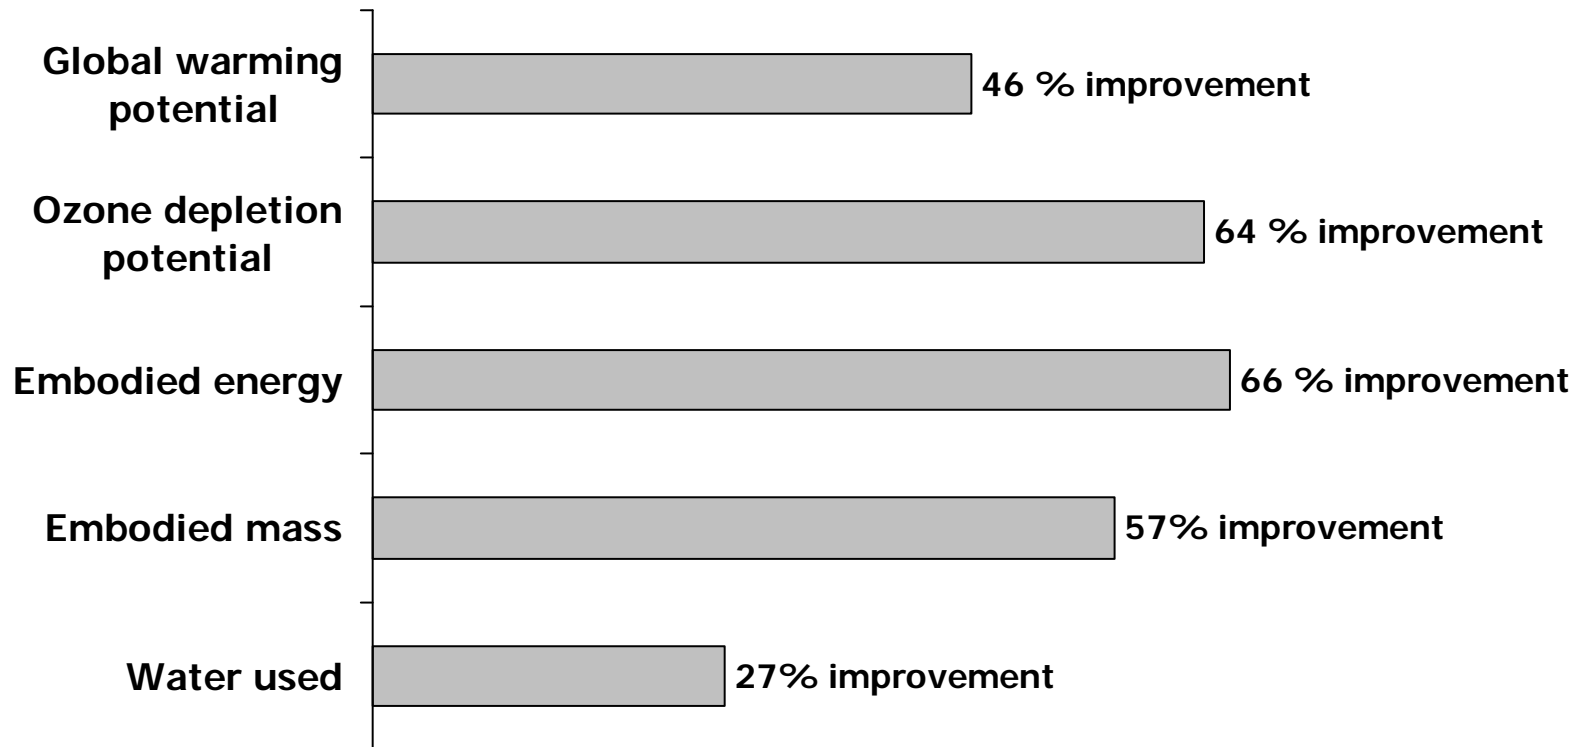

Chicago: What does „Second nature™ recycled“ mean?

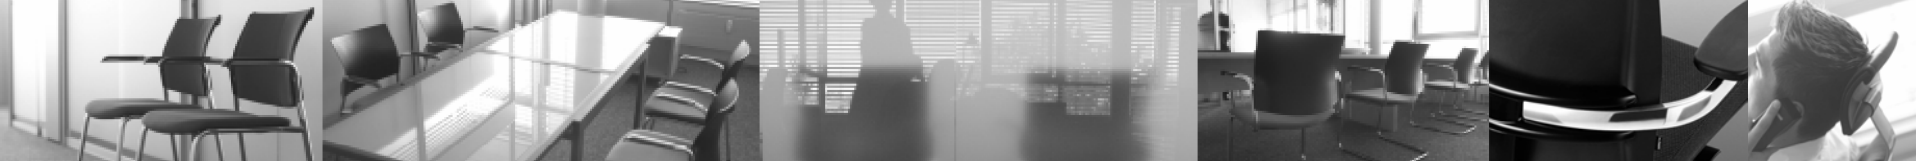

- Chicago is produced from 100 % post-industrial waste.
- Life Cycle Assessment has confirmed significant environmental improvements of recycled polyester compared to virgin.
- Uses environmentally friendly non metallic dyestuffs.
- Cradle to cradle concept, lifecycle analysis and full carbon footprinting.
- Environmental manufacturing: low energy high speed looms, green electricity, less effluent to sewer and using heavy metall free non-contaminating dyestuffs.

Chicago Life Cycle Assessment: recycled vs. virgin polyester
